

## Lesson 2: Decision Control Structure

### If-else if...else

It is always legal in C# to **nest** if-else statements, which means you can use one if or else if statement inside another if or else if statement(s).

#### Syntax

The syntax for a **nested if** statement is as follows:

```
if( boolean_expression 1 )
{
    /* Executes when the boolean expression 1 is true */
    if(boolean_expression 2)
    {
        /* Executes when the boolean expression 2 is true */
    }
}
```

You can nest **else if...else** in the similar way as you have nested *if* statement.
